

Sexual Risk Reduction vs. Sexual Risk Avoidance:

What Does the Bible Say about That?

The current gold standard in public school Sex Education curricula is called **Sexual Risk Reduction** (SRR). With good cause, parents and other concerned citizens have been horrified to find that children are being taught from the underlying presupposition that **they are sexually active**; in this approach, children are taught methods to engage in every sort of perversion, in ways that supposedly reduce their risk of disease and, especially, pregnancy.

In response, **Abstinence Groups** have rolled out an alternative, for which they seek a piece of the federal education budget pie, called **Sexual Risk Avoidance** (SRA). But is it really that different from SRR?*

What does **the Bible** say that we should teach our children about sex education? What is true **Biblical Purity**?
